

This event is most probably going to be popular as it (so far) only one of two open ten-mile tt events on the A3 this year. We hope to run this at 30second intervals hence a restriction eighty riders over the two events.

Event 1: Is for riders with no previous "open" 10mile time or an expired time from the last three seasons (LTS) i.e., pre-2019. LTS times in 2019, 2020, 2021 do not count. We are restricting this event to thirty riders, if we do not get thirty riders the surplus numbers go to Event 2.

Event 2: Is for riders with a current Ten time. We would suggest that riders who want a chance to ride with a time north of 20:30 should tick the "reserve box." This is just a suggestion, we always keep riders informed. Also, the closing date is a little earlier, if you do not get a ride there is still time to enter another event.

Always check the event Details: It's not (normally) our fault if you enter the wrong Event
